

AIRPURIFIERS-R-US.COM

your clean air solution

We are pleased to offer the following CSA-600 series laser fume extraction system for your air filtration application as described below

CSA-600 Series Fume Extractor Specifications

- Heavy gage welded Steel Construction
 - Powder coated standard Quatro white
 - Standard inlet 4" (100 mm) diameter, optional 1.5"(38mm), 2"(50mm), 2.5"(127 mm), 3"(75mm), dual collars available for multiple inlets
 - Discharge grills located on the side and underneath
 - Maximum Airflow 282 CFM (133 l/sec)
 - Maximum static pressure capability 90" w.c. (22 Kpa)
 - Whisper quiet operation, 52 dBA
 - (2) CSA/UL approved 1100 Watt brush type blowers
 - Model # CSA-626 , 120 volt single phase, 12.8 amps
- OR**
- Model CSA-625, 230 volt single phase, 6.8 amps
 - Blowers are complete with thermal cut-outs
 - 6' (2 meter) electrical cord set
 - Analog Control Panel
 - Manual on/off switch
 - Speed control
 - Circuit breaker

- Standard filter sequence supplied with system:
 - Antimicrobial multi layered high capacity bag filter
 - High capacity pleated 60% ASHRAE rated secondary filter
 - 99.97% on 0.3 microns certified medical grade HEPA filter
 - 15" deep general purpose chemical filter module

- Motors are accessed through hinged door for quick and easy service
- Easy tool less filter change out
- 6' (2 meters) of heavy duty industrial hose
- Limited one year warranty
- Dimensions: 13" x 21" x 45" High (330mm x 533mm x 1143mm High)
- Approximate operating weight is 125lbs (57 Kg)

Unit List Price . \$ 3,320.00 USD List

Optional items and Spare Parts USD \$ List

Optional side discharge kit for venting outside part# AA069-4	\$ 142.00
Digital i-series control panel extra	\$ 100.00
